

No Such Thing as too Much Quality.

Also available from Chauvin-Arnoux:

Micro - Ohmmeters

C.A 6240 - C.A 6255

Easy to use, high-performance instruments that will allow you to check the quality of your connections and bonds with very high accuracy and reliability using 4-wire very low resistance measurements at up to 10A.

Energy Loggers

PEL 102 - PEL 103

Ergonomic, magnetised and suitable for all types of cabinets, PEL loggers provide all the power and energy measurements simultaneously.

Thermal Cameras

C.A 1950 - C.A 1954

Designed and developed for simplified use, ideal for all applications such as thermal audits, fault detection, seepage, presence of humidity, etc.

Power Quality Analysers

C.A 8333 - C.A 8336 - C.A 8436 - C.A 8331

Carry out power diagnostics on even the most complex electrical systems. A comprehensive solution for measuring power, voltage and current.

Multimeters & Clamps

The essential tools for all electricians. We offer a wide range of comprehensive multimeters and clamps at competitive prices.

C.A 1110 - C.A 1227 - C.A 1246 - C.A 832 - VX 0100

The Health & Safety Kit

Safety should always be first.
We won't let cost get in the way of that.

LED/Lux meter

Thermo-anemometer

Thermo-hygrometer

Sound level meter

Electric field tester

The Experts in Test & Measurement

With over 125 years worth of experience in the Test & Measurement industry, Chauvin-Arnoux has developed a very broad product offering designed by expert engineers with the highest level of quality in mind. Our goal is to meet all of our customers' needs. If you have a problem - odds are we have the solution.
